

PAGE: *Nieuw product toevoegen*

WEBSITE: *Habes.io*

The wireframe depicts a web form for adding a new product. At the top, there is a header bar with a '+' icon on the left, the text 'HABES' in the center, and a profile picture icon on the right. Below the header is a search bar containing the placeholder text 'Zoek een ding'. The main form area consists of several input fields: a 'Naam' (Name) field, a 'Foto' (Photo) section with an 'upload' button and a large rectangular area for the image, a 'Beschrijving' (Description) field, and an 'info' field. A yellow button labeled 'VOEG TOE' (Add) is positioned to the right of the 'info' field. At the bottom of the form, there is a horizontal navigation bar with the text 'HABES' and three links: 'FAQ', 'LEGAL', and 'CONTACT'. A green arrow points down from the top of the page, and another green arrow points down from the bottom of the page.

This is an empty rectangular box, likely intended for the product details or image, with a green arrow pointing down from the top of the page.
